CHURCH NOTICES AND ACTIVITIES

Sabbath Day Finds the Community
Joining in Observance, Prayer,
and Church Attendance.

UNITED CHURCH NOTES

The Pastor will be away from Monday, December 1st until the following Monday, December 8th, conducting special services at Edgerton. We are planning for our special services which will begin on Sunday, December 7th, when Rev. Gilbert King of Edgerton will commence the campaign. We want all our people to have this special evangelistic effort in mind and prepare to free themselves from all engagements so as to give all possible time to these services. Mr. King has written the following message for his people at Edgerton and I pass it on to all readers of this column:

"What, we have been asked, is the idea in holding special services? Simply this: The intensive cultivation of religion—the deepening of spiritual life where there is life, and the offering of life through Christ where there is none.

"It is a fundamental fact of Christian experience that those who have most, want most. It is reflection upon any church group to say that they—or we—need a deepening and strengthening of our faith in and loyalty to Christ; but it is a sad confession of spiritual death to say that we feel no such need. For that in these meetings will be to direct the thoughts and interests of Christian people along the lines of worship and service, and if this objective be obtained, they cannot fail to receive a blessing.

"Then of course there are always those who need to make the initial acceptance of Jesus Christ. Jesus holds out the blessed hope of pardon and cleansing, of favour and regeneration, to everybody—the moral manhood, to as well as those who are not far from the kingdom. We want to make this offer a time of definite decision for Christ."

Our Anniversary Services were quite successful. The Rev. W. J. Huston gave us very inspiring messages and was effectively assisted by the choir in leading the worship of the large congregations which had assembled. Mrs. Whyte sang a solo "The Old Rugged Cross" during the evening service in her usual accomplished way. The Anniversary Supper was well patronized, and the social evening which followed was a very enjoyable time. The Rev. T. Taylor of Jarrold presided and also gave the audience much pleasure by the very capable manner in which he played the organ. The choir gave two sacred numbers, and Mrs. Waite of Jarrold gave the reading of "The Other Wise Man." This was very beautiful done and the full charm of Van Dyke's appealing story was felt. The lantern slides illustrating the theme were very fine and added a touch of color to its telling. There were other slides shown, being some of the pictures of Holman Hunt, the famous artist. At the close, the Rev. J. R. Geeson voiced the thanks of the church officials to all concerned in making the Anniversary Services a success.

The congregation at Albert is holding a chicken supper and social on Friday, December 5th. Please keep this date in mind.

Service will be held on Sunday next November 30th in Irma United Church at 3 p.m.

The next W. A. meeting will be held on Tuesday, December 2nd at the home of Mrs. Charles Wilbraham at 2:30 p.m. All members are asked to attend as this is the annual meeting.

Service at Coal Spring School house on Sunday, November 30th, at 1 p.m. The yearly Congregational business meeting after the service. All be there.

Rev. T. T. Boe, Pastor

ST THERESA CATHOLIC CHURCH
IRMA, ALBERTA

Service on the first Sunday of each month at 11 a.m.

WEEKLY REVIEW PROV. MARKETS

Markets as Revised by the Market
Examiner, of Calgary,
For This Paper.

BEEF—A considerably better feeling was noted on the Edmonton market this week and prices on the whole show a stronger tone. Choice heavy steers \$5.25 to \$5.50; choice light \$5.25 to \$5.50; good \$5 to \$5.25; medium \$4.25 to \$4.75; common \$3.75 to \$4.25. FEEDERS, STOCKERS—A fair demand has been noted for all offerings in this division. Feeder steers made \$4.50 to \$5; stock steers \$4.50 to \$5; stock heifers \$4.25 to \$4.75 and stock cows from \$3 to \$3.75.

HOGS—Edmonton reports the market off Wednesday, the prevailing price for bacon being \$8.50 to \$8.60; select \$9 to \$9.10, butchers \$8.15 to \$9.25, fed and watered basis. SHEEP—Fair demand noted at Calgary with prices holding about steady. Yearlings \$4 to \$5.25; ewes \$3 to \$4.50 and lambs from \$6 to \$7.25. POULTRY—Some jobbers report they are handling large supplies, while others are getting very few. Demand slow; bulk of birds in fair condition, owing to low price of grain feed. No change in quotations: Chickens, No. 1, over 5 lbs., 12c; No. 1, 4-5 lbs., 12c; No. 1 under 4 lbs., 10c; No. 2, 7c. Fowl, No. 1, over 5 lbs., 12c; No. 1, 4-5 lbs., 11c; No. 1 under 4 lbs., 10c; No. 2, 7c; roosters 5c. These are live prices, there being no demand for country dressed birds. No improvement in turkey outlook and prices not quoted this week.

EGGS—Demand continues active, but receipts of Alberta eggs practically nil. B. C. pullet strage filling bulk of orders. Storage stocks moving out readily. Jobbers quote Alberta eggs as follows: Extras 30¢ to 35¢; firsts, 28¢ to 33¢, and seconds, 20¢ to 21¢. HAY—Offerings from country points somewhat lighter this week. Demand continues drab, and only odd cars are moving. Feeders reported to be buying direct from farmers and this movement is slightly larger than appears. Upland quoted at \$11 to \$12, with timothy at \$16 per ton, at country points.

OATS—Slightly better undertone to this market, but price is unchanged at 25¢ per bushel, delivered. Receipts show no improvement.

GREENFEED—Only small lots are moving. Bulk of offerings very good quality. Steady price of \$10 to \$11 prevails.

HIDES—No improvement in undertone of this market. Receipts from country light and quality on the whole is only fair. Prices steady. Tanners buying on a hand-to-mouth basis, and filling nearly all their orders with packer offerings.

VIKING GARAGE BURNS

The Viking Garage near the station burned to the ground early Saturday morning with a loss estimated at four thousand dollars. Three cars stored in the garage were also destroyed. The cause of the fire is unknown.

NEW HEAD OF CANADIAN WHEAT POOL

John I. McFarland, prominent grain man, of Calgary, has been appointed general manager of the Canadian Wheat Pool, it was announced on Friday.

NOTICE TO ADVERTISERS AND SUBSCRIBERS

Owing to a sad death in the immediate family of the printer of this paper, it is being issued. On account of being so late, there will be no Times printed for Friday, December 5th. The date of the next issue will be Friday, December 12th.

C. G. I. T. REPORT

The meeting held on November 25, opened by singing "I Would Be True". We had a missionary talk on "Canadian Indian" from Mrs. Stoffer. We wish to thank her for the very interesting talk. I'm sure we all enjoyed it, as well as learned a number of things from it. We closed our meeting by first playing a game and then repeating our purpose together.

The Women's Institute Bazaar will be held on Saturday, December 6th, over the Nu Way Store.

Reassuring Statement By Bank of Montreal

Annual Report Offers Evidence of Soundness of Underlying Conditions in Canada—Total Assets Now Stand at \$826,969,537, Up From \$822,599,648—Liquid Assets Reported at \$438,192,479 Equal 59.32 Per Cent of Total Liabilities to the Public—Deposits Gain to \$697,395,742 From \$668,067,754—Report Issued in New Form.

The annual report of the Bank of Montreal—with its many reassuring features—shows its appearance at a most opportune time. Naturally, with disturbed conditions in every country of the world, many are endeavoring to obtain a better understanding of underlying conditions throughout Canada.

On this account, it will be gratifying to find that the premier bank of the Dominion has been able to submit to its shareholders a report that shows the bank has fully maintained its characteristically strong position. It was to be expected, in view of general conditions, that there would be some falling off in the volume of business handled, and perhaps in profits. It is, therefore, encouraging to note that for the last six months of the fiscal year the bank has been able to show gains in several of its principal departments—to further add to its usual position of strength by an increase in liquid assets to almost 60 per cent. of total liabilities to the public, and at the same time report to its shareholders profits ample to take care of the regular dividends and bonus; to apply \$800,000 to bank premises and to make a comfortable contribution to Profit and Loss Account.

Strong Position

The general statement of the assets and liabilities, which is for the fiscal year to October 31st, contains a number of interesting features. Total assets are reported at \$826,969,537, up from \$822,599,648 at the end of the first six months of the year. Of this total, liquid assets amount to \$438,192,479, which is equal to 59.32 per cent of total liabilities to the public, and compare with \$373,450,296, included among them are cash and Dominion notes of \$100,047,419, or 13.54 per cent. of total public liabilities.

Gain in High Grade Holdings
Due to general market conditions, there has been a substantial reduction in call loans and marked gains in the holdings of Dominion and Provincial government securities and in Canadian, municipal securities and British, foreign and colonial public securities. As a result, call loans in Canada are \$17,840,690, down from \$27,460,856, and call loans in Great Britain and the United States have declined to \$60,921,712, from \$68,028,615. At the same time, Dominion and Provincial government securities have increased to \$131,107,484 from \$99,081,964, and Canadian municipal securities and British, foreign and colonial public securities total \$46,447,441, as compared with \$21,830,527.

The somewhat smaller volume of business being done throughout the country is reflected by a reduction in current loans in Canada to \$290,572,423 from \$355,301,194, while current loans outside of Canada are \$42,547,341 as against \$43,188,318. Loans to cities, towns and municipalities stand at \$24,246,054 as compared with \$37,451,194.

A constructive feature is shown by the tendency of deposits to record increases. Total deposits now amount to \$697,395,742, up from \$688,067,754.

Profits Maintained

The profit and loss account shows profits of \$6,519,681 as compared with \$7,070,802 in the previous year. The profits, added to the amount carried forward, made the total available for distribution \$7,254,612. This was allotted as follows: dividends and bonus \$5,047,586; provision for taxes Dominion government \$459,979, and reservation for bank premises \$800,000, leaving a balance to be carried forward of \$947,047, against \$735,582 at the end of the previous fiscal year.

The Bank this year, in addition to issuing its statement in circular form to shareholders, is publishing a summary of the outstanding features of the report in a form that will be readily understandable. This statement will be found in another column and is certain to be of great assistance to all who are endeavoring to

obtain in brief form an easily understood outline of the position of the Bank.

DOUBLE HEADER SHOW

KIEFER'S THEATRE

WEDNESDAY, DEC. 3rd

Clara Bow, serving sodas to the boys of the fleet in Harry Green's drug store in San Diego, gets in a lot of "It." The boys fall hard for the "Redhead." She plays them all along. She has a special boy-friend on each battleship...then the whole fleet comes in at once.

Clara's singing voice is one of the big features of "True to the Navy." She croons "There Is Only One Who Matters to Me" as nobody else could. It's no wonder all the sailors believe her when she says it. Clara looks marvellous as she sings the number. She sings with her voice, with her eyes with her whole body, with all her personality. And Clara Bow's singing is all the more delightful because it is a surprising talent.

Also Musical Eckardts Dancers, Vocalists and Comedians, 5 people, two shows in one. Adults 55c; School Pupils 25c. — Kiefer's Theatre, Irma, Wednesday, December 3rd. Dance after.

HONEY RECIPES FROM

DEPT. OF AGRICULTURE

Honey Cheese Sandwich Spread

Half cup butter, 3 eggs, beaten, 2-3 cup honey, 3 tbs. mustard, 1 tbs. salt, 1 cup vinegar, 1-4 lb. cream cheese, 1-4 cup sweet cream, 2 green peppers, finely chopped (olives might be substituted). Mix together and cook in a double boiler.

Date Cranberry Spread
1 lb. Dates, 1 cup. Cranberries, 1 pint water, 1-2 cup honey. Boil dates and cranberries with water 20 minutes or until thick. Pour in sterilized jars and seal.

Honey Apple Butter

Wash the apples and cut in eights, cook in a small amount of water until tender. Put through a sieve. To each cup of pulp, add 3-4 tbs. of honey and cook the mixture until it is thick. If the apples lack flavor, a small amount of lemon juice and grated rind may be added. Cinnamon is sometimes added. Pour into hot, clean glasses and seal.

DANCE AT AVONDALE SCHOOL

FRIDAY, DECEMBER 5th

A dance will be held at Avondale Schoolhouse on Friday, December 5th. Coulman's Orchestra. Ladies please bring a basket.

POSTPONED WHIST DRIVE

The Whist Drive under the auspices of the Rebekahs will be held in the lodge room on Tuesday night, December 9th. Everybody welcome. Admission 35c.

CARD OF THANKS

We wish to thank our many friends for the kind sympathy and assistance in our recent bereavement, also for the lovely flowers.
Signed: Mrs. James G. Elliott and family and Mr. and Mrs. J. H. Elliott and Mary.

PARLIAMENT BUILDINGS, EDMONTON, ALBERTA

"His Majesty's Choir Children" to Sing

Canada is honored—and delighted—by the visit to the Dominion of the children of His Majesty's Savoy Chapel Choir, composed of twelve boy sopranos, the pick of England's best youthful singers, all of them under sixteen years of age. It is the first occasion in the 70-year history of the Chapel that a King of England has given permission to the children of the choir to leave Great Britain. They will take part in the Christmas Festival to be held this year at Lucerne-in-Quebec, and they will also give a recital at the Royal York Hotel, Toronto, December 23. Those who associate the choir with strictly church music will get a surprise, for programmes to be rendered by the boys include not only this type of music but also some of the best known of secular songs, glee and part songs, presented in solo, trio or choral form. When they sing church music they are garbed in scarlet and gold costumes surmounted by the quaint Tudor ruff, exactly as they appear upon festival occasions in London. They come to Canada as representatives of an institution which typifies the best traditions of choral singing in a country where choral singing is unexcelled in any part of the world.

Unemployment Relief Policies

Unemployment not only casts a sinister shadow over the world today, but the substance of the thing has hundreds of thousands, even millions, of men, women and children in its grip. Admittedly the situation is a serious one, first, because of the actual suffering entailed thereby, but also because it is causing men to "see red," as the saying is, and lose faith in all established and orderly methods of government, society and business. The tendency is to repudiate economic truths, and to try experiments with almost any half-brained proposal that may be advanced. Here lies the real danger for the future, because many of the suggested remedies would result in a state of affairs far worse, and cause more suffering, than the condition they sought to improve and cure.

One suggested temporary remedy for present unemployment that undoubtedly finds support in many quarters is the substitution of handwork, manual labor, for machinery in prosecuting relief works. For example, it is reported that one large United States city is developing a program of winter work that will substitute pick-and-shovel brigades for machines, the object being, of course, to give work to a larger number of men. The same suggestion is being advanced in connection with municipal relief works throughout Canada.

The question is: Should we deliberately abandon our labor-saving devices and revert to the painfully slow methods of yesterday in order to provide jobs for the unemployed? Is it wise to do so, and, in the long run, are the unemployed benefited thereby? The subject deserves close study.

Without doubt, a good deal of work can be manufactured by substituting primitive manual methods for more efficient machine-processes, remarks the New York Journal of Commerce. Indeed, by some systematic elimination of our modern labor-saving devices, it goes on, we could speedily reduce any modern industrialized community to a condition which would require the full-time effort of every able-bodied person to prevent wholesale starvation and death from exposure. But, without carrying the policy to any such lengths, is the suggestion good in any way?

In one of our prairie provinces where much road work is being carried on as a means of providing employment, decision was reached to build a certain road without use of machinery and solely by horses and manual labor. Objection was raised by some people that by using machinery for certain phases of the work, a greater mileage of good road could be constructed for the same money while giving employment to just as many men because of the greater mileage involved. This view was rejected, no machinery was used, and the work proceeded. A total of five miles of graded road was the result. Now it is realized that with the same number of men given work, practically the same expenditure of money, and the use of a certain amount of machinery, three times that mileage could have been constructed. The farmers of the district who were given relief work on that road would have benefited more from fifteen rather than five miles of good road, while in the years to come they must pay their share of the taxation necessitated by this relief expenditure. They gained nothing temporarily, and will lose in the long run.

Fifty men digging a trench for a sewer or other pipe line with pick and shovel will accomplish just so much in a day, but the same fifty men working in conjunction with a trench-digging machine will accomplish several times as much, and with little more expense. Or fifty men cleaning snow off sidewalks with shovels will do as much of the work that the same fifty men following after snow-ploughs will do, yet the same number of men will be given work and practically the same expenditure of public funds be required.

There should be no hasty assumption that the elimination of machinery in carrying out unemployment relief works is wise, or that more work for the unemployed can be thus provided. It does mean, however, that less will be accomplished for the money expended, and for this economic loss everybody, including those at present unemployed, will have to pay through taxation in the years to come.

Other suggested remedies have more to commend them, as, for example, the proposals in Great Britain and Germany to raise the compulsory school attendance for one year, thus keeping some hundreds of thousands of children in school for a longer period instead of having them forced into employment replacing others now at work, or merely added to the ranks of the idle and out-of-work. There is something constructive in such a policy, benefiting the coming generation of workers, and raising the whole educational standard of the nation.

So, too, is there much to be said in favor of the suggestion that the present six-day or five and a half-day work week be reduced to a five-day work week, or that the present 8-hour day be reduced to a 7-hour or even a 6-hour day. As the head of one of the greatest industrial corporations in the world today recently pointed out, the greater the amount of leisure time enjoyed by the workers of the world, the larger will be their demand for the things necessary to the enjoyment of those leisure hours, thus creating a greater demand than ever for the production of the things they require. More men would be employed, more goods produced and purchased, a higher, rather than a lower, standard of living created.

Not Good Publicity

Stunt Flying Does Not Help Aviation
In Any Way

In the Preakness, N.J., airport on a recent Sunday, 5,000 people were watching the maneuvers of stunt fliers. At night when an airplane, driven by veteran Alden H. Russell, went into a tail spin and crashed, injuring Russell seriously and his one passenger fatally. More than these two men were endangered; the crash came within 300 feet of the massed spectators. In Toronto at about the same time a pilot and two women passengers were burned to death in a low crash after stunting.

The friends of commercial aviation in view of the number of such fatalities, may well ask themselves what kind of publicity will most benefit their young industry; the plaudits of the crowd gathered to risk their own lives in seeing reckless pilots risk theirs, or the story of the really remarkable advance that is being made in aviation with a purpose. For, almost unnoticed along with the dangerous stunting the carrying of air mails and passengers goes on with comparative safety, which should be if attention were not constantly diverted from it by fatal accidents in exhibitions, most encouraging.

It ought not to take a major accident with a hundred people killed by a plane out of control to open the eyes of aviation authorities to the necessity of curbing the practice of recklessly showing off what wonderful things can be done in the air—with luck, which does not always attend the venture.

A Mother's Anxiety

About Her Delicate Daughter

"She seems to be fading away," said an anxious mother recently about her daughter. "Thousands of mothers could say the same thing. The daughters endure a trying life, robbed of all vitality and brightness. Their cheeks are pale, their eyes dull, their steps languid and every movement tells of shattered health. If neglected their suffering grows more acute till death sets in."

If your daughter complains of weariness, pains in the side, weak eyes, headache or backache, her appetite is uncertain and her spirits low—anaemia is the cause. She needs new blood. Give her Dr. Williams' Pink Pills at once for these pills actually renew and enrich the blood. They make sickly girls well and happy; improve the appetite and bring back all the charm and brightness of perfect health.

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Pioneer Passes

Death Of One Of The First White Women Born In Western Canada

The death has taken place of Mrs. Elizabeth Adelaide Mary McKinnon, 77, one of the first white women born in western Canada. A native of Port Garry, daughter of Philip MacQuire, of the Hudson's Bay Company, she went through the Indian rebellion at Port Garry, and the 1855 Louis Riel rising, when she was living at Qu'Appelle. She was the widow of John McKinnon, contractor, Winnipeg.

A resident of British Columbia for 30 years, she was a pioneer of Prince Rupert and had lived here for 12 years.

Cause Of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Germany Holds Strange Fair

One of the strangest fairs in the world is to be held at Frankfurt, Germany. It is an insect fair at which collectors from all parts of the world gather to display their rare butterflies, moths, beetles, grasshoppers, flies, crickets and other insects. Huge sums of money are exchanged in sales of these insects between various collectors.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Exterminator will relieve them and restore health.

Canada and Empire Reforestation

Canada is yearly playing a bigger part in Empire reforestation. Fifty-three per cent. of the tree seed exported has gone to Great Britain, forty per cent. to New Zealand, and the remainder to Australia, Ireland, and other parts of the Empire. During the past ten years the British Forestry Commission has planted 140,000 acres of softwoods, the greater part of the seed used coming from Canada.

Marvels Yet To Come

Inventor Responsible For Train Telephone Has Great Vision For Future

Forecasting the future always is an interesting occupation. While in this respect the chief interest of the public is in the weather for tomorrow, other unusual prognostications attract attention. An article in MacLean's Magazine dealing with the genius of Mr. John C. Burkholder, who is responsible for the telephone in operation on the Canadian National Railways, sets forth other ideas in the mind of this inventor.

Among the marvels that are to come, he sees the time when newspapers may publish in different cities by transmitting the whole edition, page by page, illustrations and all, by telegraph, with only a matter of minutes until the presses are running. City streets are to be three-deckers, and moving sidewalks will do away with street cars. Television and radio will bring from London and New York the greatest stage presentation and "the wheel of industry may be turned by the power contained in a glass of water and its plants lighted by rays captured from the sun."

Perhaps. A few decades ago Bellamy had such a vision and a great deal of it came true. The world is not slowing down, and possibly the most vivid imagination cannot forecast the marvels that are yet to come.

A Deadly New Rifle

Works Like Machine Gun Even Under Severe Test

The possibility of making every infantryman a machine gunner was demonstrated at Bisley in the presence of representatives of the War Office, the Royal Air Force and the Admiralty, when a series of tests were made of the Vickers-Berthier land service rifle, and the Pedersen semi-automatic.

The machine rifle was subjected to a severe ordeal. It was buried deep in the sandy soil. Then it was resurrected, and in the hands of a capable demonstrator it ticked off single shots, and all rounds fired out lead at the rate of 450 rounds a minute.

An even more severe test was to submerge the machine rifle in a tank of mud and water of mortar-like consistency. It survived, with its mechanical efficiency and accuracy unimpaired. The weapon was taken into a heap of its component parts in 10 seconds. It was quickly reassembled and ready for action. One thousand rounds rapid were fired on the 100 yards range, that being the average period of its burst of fire.

Western Canada Sugar Production
About 24,000,000 pounds of sugar will be produced this year from sugar beets grown in Southern Alberta. About 14,000 acres of beets were under crop this year. The centre of the industry is at Raymond.

Has it ever occurred to you that there is no last number? The process of counting cannot conceivably be terminated. Dr. Dantzig points out. Every number has a successor. There is an infinity of numbers.

Requisite On The Farm—Every farmer and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for flu in the family, but because it is a horse and cattle medicine of great potency. As a substitute for liniment for horses and cattle afflicted by colic it far surpasses anything that can be administered.

"I wish you could pay a little attention to what I am saying," roared the exasperated barometer to a stubborn witness. "Well," was the reply, "I'm paying as little as I can."

Drug Ring Smashed

United States Federal Agents Make Thirty Arrests

Thirty arrests in seven cities, and seizure of drugs valued at \$25,000, were reported by United States federal officers who for six weeks have worked under cover in an effort to smash what they described as an "international drug ring—one of the biggest and most powerful in the United States."

The secret government agents caused the arrests in Syracuse, Buffalo, N.Y., Utica, Albany, Troy and Schenectady. The coup was said to have been engineered by narcotic officials at Washington and New York.

Three were taken into custody in Syracuse Saturday night, Nov. 1, after undercover men, who had gained the confidence of several of the men, said by them to be members of the ring, were lured to Syracuse with invitations to a "wild party."

Instructors For Poultry Breeders

Course Is Announced For Young Breeders Of Poultry By Calgary Poultry Association

A course of instruction for young poultry breeders is announced by Dr. D. S. Macnab, president of the Calgary Poultry Association, extending from November to February 6th. A matinee poultry show, when each student will be asked to judge a section of the show, after which competent judges will comment on the awards, will conclude the course.

Persian Balm is unrivalled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands flawlessly white. Especially recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

Silicate of Soda Gels

In setting up paper boxes, a mineral glue—silicate of soda—is of great utility, and, in connection with this, a number of experiments are being carried out by the Forest Products Laboratories, Department of the Interior, Ottawa.

Minard's Liniment refreshes the scalp.

Meat Consumption in Canada
The per capita consumption of meats in Canada last year was: beef, 676,990,352 pounds or 69.09 pounds per capita; pork, 798,638,774 pounds or 81.52 pounds per capita; mutton and lamb, 70,511,238 pounds or 7.20 pounds per capita.

Heart and Nerves So Bad Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Galltortown, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Better Times Than Ever Loom Just Ahead If Experience Of History Can Be Relied Upon

A "cheer up" cry, with reasons for it, which are as applicable today as when they were written, appears in an article by Macaulay, contributed to "The Edinburgh Review" of January, 1830. He points out that in almost every part of the annals of mankind, the industry of individuals, struggling up against wars, taxes, famines, conflagrations, mischievous prohibitions, creates faster than governments can squander, and repairs whatever invaders can destroy.

The time in which the historian wrote was admittedly one of great distress, and he adds: "If we were to prophesy that in the year 1930 a population of 50,000,000, better fed, clad and lodged than the English of our time, will cover these islands—that cultivation, rich as that of a flower garden, will be carried up to the very tops of Ben Nevis and Helvellyn—that machines, constructed on principles yet undiscovered, will be in every house—that there will be no highways but railroads, no travelling but by steam—that our debt, vast as it seems to us, will appear to our great grandchildren a trifling encumbrance, which might easily be paid off in a year or two—many people would think us insane." Such a prophecy, if made, would have come remarkably close to the mark. The population of the British Isles is a little less than 50,000,000, but the people are undoubtedly better fed, clad, and lodged than they were a century ago, and the debt of those days would be considered a little more than a trifling encumbrance.

But the historian wisely disclaimed any intention to prophesy, and made his appeal to the general principles of history. To almost all men, he says, the state of things in which they have been used to live seems to be the necessary state of things, and though, in every age, everybody knows that up to his time progressive improvement has been taking place, nobody seems to reckon on any improvement, during the next generation. It cannot be absolutely proved that those are in error who say that society has reached the turning point; that the best days have been seen; but so said all who came before us with just as much apparent reason. "On what principle is it that if we see nothing but improvement behind us, we are to expect nothing but deterioration before us?" Macaulay declares that rulers will best promote the improvement of the people by strictly confining themselves to their own legitimate duties by leaving capital to find its most lucrative course, commodities their fair share in industry and intelligence their natural reward, illness and folly their natural punishment, by maintaining peace, by defending property, by diminishing the price of law and by observing strict economy in every department of the state. "Let the government do this, the people will assuredly do the rest."

The situation today is not new. The world has periodically continued with similar or worse conditions and has emerged more progressive and prosperous than before. Macaulay's appeal to the history of mankind supplies reasons for confidence in the future.—Toronto Mail and Empire.

Dates Back Many Years

Prince Edward Islanders Started Fox Farming In 1878

"Summer visitors to Prince Edward Island have observed that fox pens are almost as numerous in the province as hen houses are on farms in the United States," says the New York Sun, which points out that this business dates back to 1878 when pioneer breeders near Tignish started with a score of foxes captured in the woods. "The original 20 were the Adams and Eves of this flourishing industry. In 1920 the Canadian National Fox Breeders' Association registered 70,833 newborn cubs, all descended from the original group."

"Why do you bother to paint pictures? There are any amount of them to be bought."—Der Whore Jakob, Berlin.

W. N. U. 1880

Cold Weather Layers

University Of Saskatchewan Trying To Develop Frost-proof Hen

And now they are looking for the frost-proof hen at the University of Saskatchewan. The family of hen No. 800 is showing up remarkably well as cold weather layers. While Saskatchewan was doing its worst in the way of blizzards these pullets in a cold house were nobly producing their daily eggs. There are eight full sisters from an early hatch. The earliest started laying in August and they average 58 eggs each up to the present time.

The eggs of No. 800 are remarkable in another direction. Seventy-four eggs from this hen were included in one setting of the incubator and 60 chicks were produced. This is chick production of 81 per cent. This factor of high fertility and hatchability in the eggs is considered highly important by Professor W. J. Rae, who is keeping records of this poultry family. The sire of the pullet under test was of the same family as Lady Victoria, former world's champion egg layer.

(By Annette)

921

THE COWL NECKLINE TERMINATES IN SCARF

Here's a marvellous dress for Autumn for town wear. And best of all, it's a stunning dress for later that will easily slip under a Winter Coat.

The curved seaming reduces any bulk about the hips. The bolero bodice is cut on very becoming lines. It is given an entirely new aspect through the cowl neckline that ends in a scarf at the back. It is a tweed printed silk in rich dark brown tones with beige contrast in plain crepe.

Style No. 921 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. You can copy it at a big saving. Black canton crepe with white crepe is very chic and dignified or if preferred the cowl neckline may be made of self material. Transparent velvet, crepe patterned or plain woolen, crepe satin and crepe marocain are delightful suggestions for this model. Size 36 requires 3 1/2 yards 54-inch with 3/4 yard 30-inch contrasting. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Grading Canadian Poultry

Agreement Reached With Buyers Means Much To Farmers

Growing out of a series of conferences held in Toronto between representatives of the leading wholesale buyers of poultry and officials of the Dominion Department of Agriculture, Hon. Robert Weir, minister of the department, announced an agreement had been reached on the part of the buyers to recognize Government grades as the standard for trading, and the establishment of substantial price differentials between classes and grades.

"The agreement marks one of the most important developments in the poultry industry in many years," says a statement issued by the agricultural department. The statement continues:

"Just what this announcement means to the farmers of Canada is indicated by the fact that through the simple process of crate feeding and properly finishing poultry for market from 50 to 75 cents in market value may be added to the individual bird. With some 15,000,000 birds to be marketed during the next two or three months this means the possibility of increased cash returns to farmers of from \$5,000,000 to \$7,500,000."

Canada's poultry season extends roughly from Oct. 20 to the New Year. During that time approximately 15,000,000 chickens and fowl will be marketed in this country in addition to the turkeys, geese, ducks, etc. The average weight of the chickens will be about four pounds.

All poultry will be divided into two main grades, "milk-fed" and "selected." "Milk-fed" does not necessarily mean that the birds get milk to drink. It means that they have been crated fed until their muscles have been softened and the fat takes on a milk-white color. The selected are range fed with more athletic muscles.

The two grades will be subdivided into several classes and the buyers will pay a differential of 4 cents a pound in favor of the milk-fed class. It will mean that the farmer who "finishes" his poultry, that is crated feeds them, will get a substantial margin over the one who lets his stock run at large. With the present price of feed, it is estimated that crate feeding will be a profitable undertaking.

Vancouver Harbor

Expect To Handle 160,000,000 Bushels Of Wheat This Winter

The Vancouver Harbor may be called upon this winter to handle about 150,000,000 bushels of wheat, and the Commissioners state that the port is capable of doing this. The chairman, Sam McClay, is quoted as saying: "We have nearly 14,500,000 bushels elevator capacity now, with an additional 2,000,000 bushels coming in about November 15th, and we can find ways and means of storing everything that comes to us."

Canada's Clay Resources

In addition to many other types of clays Canada has immense resources of clays and shales suitable for the manufacture of building brick, and structural and drain tiles.

PROGRESS OF WATER POWER INSTALLATION

In taking stock of Canada's position during the present period of world-wide economic difficulty, one of the most inspiring features is the fact that the Dominion's water-power resources furnish a seemingly irrepressible impetus to national progress. In the face of all the buffets

development has maintained a sureness of advance through all obstacles—through the pre-war slump, through the disruption of the war itself, and through the drastic ups and downs of the last decade. And today, in the midst of world-wide depression, there is being carried forward the greatest

STEPPING UP CANADA'S WATER POWER DEVELOPMENT

of business cycles, water-power development continues to forge rapidly ahead.

Since 1910 Canada's water-power installation has risen from less than 1,000,000 to nearly 6,000,000 horsepower. The record of growth has been a marvel of persistency. During the past twenty years, water-power

program of hydro-electric installation in the history of the Dominion. This ability of water-power development to hold its forward course in the face of recession in almost every other major field is one of the most fortunate and favorable factors affecting Canada's economic position and progress.

DEAN OF C.P.R. CONDUCTORS

Charles H. S. Henderson, train conductor operating on the Canadian Pacific Railway run between St. Stephen and Edmundton, N.B., lays claim to the distinction of having been the youngest train conductor on any railway and of being today the oldest of any in active service. In 1878, at the age of barely seventeen, he was conductor on the New Brunswick Railway between above points and he continued in the same capacity when it was taken over by the Canadian Pacific. Born in 1862, from the age of nine, when he lost his parents, he has been in continuous employment since 1883 and has had uninterrupted charge of regular scheduled trains with the exception of a short term as Train Master. He has had under his care at various times three presidents of the Canadian Pacific Railway—Sir W. C. Van Horne, who said of him, "You're some man, Henderson"; Baron Shaughnessy, who described him as "a very careful and efficient man"; and E. W. Beatty, of whose special train touring the Maritime Provinces last year he was conductor. Mr. Beatty congratulated him on his many years of service and introduced him to Sir Herbert Holt who told him he had the most wonderful record of the system. This year Mr. Henderson was conductor of the vice regal train carrying Lady Willingdon and suite from St. Edmundton to St. Andrews. As above illustration shows, he is still in full possession of the energy and vigor of a man many years younger.

A New Definition

Scotch Minister Upsets Idea Of What "Calgary" Means

The friendly controversy which for years has raged over the name of the city of Calgary is expected to break out afresh with the arrival from Scotland of a new Gaelic definition of the word "Calgary." For years it has been generally accepted that the Calgary meant "clear running water." Now comes word from Rev. Archibald Scott, D.D., of Helmsdale, Sutherland, Scotland, that the real definition is "Hut in the Thicket" or "Den of the Rough."—Calgary Herald.

Every town has a rich man who wears the sack at the last five seasons. And it's none of our business.

Canada's Greatest Opportunity Lies In Increasing The Production Of Livestock

At a time when the prices for grains and other farm products have been declining rapidly, livestock prices have shown outstanding strength. At present relative prices, says the monthly letter of the Royal Bank of Canada, it is decidedly more profitable for the farmer to export his grain in the form of cattle, cheese and bacon than to attempt to sell his grain in a world market burdened with surplus supplies from many countries.

Perhaps the outstanding opportunity in livestock at the present moment is in the market for pork and bacon. The demand for bacon in Great Britain has grown at an amazing rate. In 1921, imports of bacon into Great Britain amounted to 636 million pounds. In each of the last three years the total imports into that market have been more than 900 million pounds. This is an increase of 50 per cent, and most of the additional supplies have come from Denmark. Canadian shipments, however, are no greater today than they were forty years ago.

In 1924, the average price of Canadian bacon on the British market was equivalent to the price which prevailed in September 1930, in that market. In 1924, Canadian exports amounted to 120 million pounds. For the present year it is doubtful whether they will amount to as much as 20 million pounds. In 1924, the price of wheat was approximately 75 per cent. higher than at present, and the price of barley, the most important grain for the bacon hog, was more than two and one-half times the price now prevailing. These facts seem to indicate that the possible margin of profit in hogs has improved decidedly.

British imports of dairy products have also been maintained, although the proportion secured from Canada is declining. Canadian exports of butter have practically disappeared and shipments of cheese are one-third less than they were five years ago. Canadian cheese long held first place in the British market and as late as

1928 received a substantial premium for its high quality.

The rapid decline in Canada's export trade in animal products has been partly due to the great increase in domestic requirements. This has been very great during the past few years and production has not increased in keeping with the growing demand. Shipments overseas have been drastically cut, and in some instances, such as butter and lamb, large quantities have been shipped into Canada. Butter imports amounted to nearly 36 million pounds in 1929, and imports of mutton and lamb to over four million pounds. Substantial quantities of beef and pork were also brought in.

Millions of bushels of low-grade wheat and coarse grains are produced in Canada each year. Mill offals, screenings and similar products are available in abundance. Under the best conditions, it is more profitable to market these commodities through the medium of livestock and animal products than by selling them as raw materials.

The home market itself offers opportunities for the expansion of Canadian production. The efforts of the British Government through the Imperial Economic Conference and the Empire Marketing Board have created conditions favorable to the extension of Canadian exports in the British markets. The high standard of quality achieved by producers of Canadian bacon and cheese is well known overseas. Farmers and others interested in Canadian livestock might well consider their opportunities for the development of the industry and the extension of both the domestic and export markets for such products. The assurance to importers of adequate and steady supplies with quality and price in keeping with similar products from other countries is necessary if Canada is to regain her former position in the international field. Present conditions seem to be favorable for the expansion of this industry and for greater diversification in Canadian agriculture.

Making Milk Safe

Health Authorities Constantly Urge the Pasteurization Of Milk

Milk and milk products are generally recognized as the most important factors in the food supply of the family, but it is not without its dangers as a carrier of disease germs. It is for this reason that health authorities and experts of the dairy industry constantly urge the pasteurization of milk as the one way by which it can be made absolutely safe. A wealth of material might be written about the value and safeguards of the process. Most of the large dairies serving important centres pasteurize all their milk. From the health standpoint pasteurization is sufficiently important that it should be done at home if a supply from a commercial plant is not available. How this is done is told in the pamphlet "Why Pasteurize Milk" which has just been issued by the Department of Agriculture at Ottawa. Briefly, by the use of a dairy thermometer and a double boiler of suitable capacity milk is held at a temperature of 145 degrees Fahrenheit for a period of thirty minutes, then cooled quickly to below 50 degrees Fahrenheit. When thus treated milk is safe.

An Unusual Experiment

Research Association Believes Sheep Skins Could Grow Wool Forever

Experiments are being made by the Research Association for the British Woolen and Worsted Industries which may lead to unlimited quantities of wool being grown on the skins of sheep that have been killed. "There seems to be no reason why these skin and hair cells should not be made to live indefinitely," said an official of the Research Association. "One day perhaps the skins of sheep may be stretched on frames, bathed in suitable solutions, and used as chemically maintained wool factories years after the sheep is dead and sold as mutton."

Meeting Of Teachers' Association

T. C. McKay, of Warman, Sask., was elected president of the Saskatchewan Inspectors' Teachers' Association at the concluding session. A resolution asked that the Teachers' Superannuation Act, 1930, be amended to make provision for duly qualified teachers working in Indian schools under the Federal Government. The resolution asked that they come under the scheme, if they so wished, and become eligible for old age pensions.

Germany's Hard Times

Make Present Depression In Canada Look Like Rosy Dawn

If it is thought that times are hard in Canada today, just give a thought to what the Germans are up against. A recent news dispatch points out that of 40,000,000 German men and women of voting age, nearly one-third are dependent on public funds for food and shelter—not counting Government employees. The German Government last year spent about \$1,250,000,000 for all purposes. Of this sum more than half was devoted to the support of 12,000,000 persons who were entirely dependent on the state. Wage reductions are proposed for German industry; but skilled workers now only average \$16.25 a week, and unskilled workers get around \$10. This makes our own depression look like bountiful prosperity.

Germany Has Big Libraries

Berlin Leads Cities With Over Nine Million Volumes

Statistics have just been published regarding the number of books in Germany's libraries. According to these, the total number is 54,000,000 volumes, Berlin leading with 9,360,000 and Munich following with 4,260,000. In consequence of the regulation that one copy of every new copyrighted work must be sent to the "Deutsche Bucherei" at Leipzig, that city now contains 1,330,000 books, and four other German cities possess libraries that have over a million.

Development Of Dairying

The Manitoba Livestock Credit Association, in conjunction with the Winnipeg Board of Trade, is working on a scheme for the development of dairying and of increasing the production of poultry and eggs, and the rehabilitation of hogless farms.

VIKING

Drs. G. M. Little and W. G. Saunders, of this place, have been appointed by the provincial health department as medical health officers for two new provincial health units, Dr. Little with headquarters at Red Deer, and Dr. Saunders with headquarters at High River. They will leave the first of the year for the East where they will take several months post-graduate work before taking over their new duties.

The announcement of their leaving has been received with genuine regret throughout this whole community.

Dr. Little has been practicing his profession here for the past nine years and Dr. Saunders has been with us for three years. Both of them are skilled in their profession and enjoy the confidence and respect of not only this community, but a wide territory surrounding this district where their services as physicians have been sought. During their stay here they have found time to take an active interest in the civic and social life of our town.

Drs. Saunders and Little are entering a newer and larger field being instituted by the provincial health department and they will have a wider scope for public health service. Each unit comprises six municipalities where much of their work will be in an advisory capacity, and it is a recognition of their abilities that they have been chosen from the medical men of the province to begin this important public health service, and the best wishes of our community for success goes with them in their new field of endeavor.

The W. L. held their regular monthly meeting in the Church Hall, November 20th at 3 o'clock with an attendance of 12. All officers were present. Mrs. Hyslop, President and Mrs. H. G. Gower, Treasurer, were on the sick list and Mrs. N. C. Graham was away.

Mrs. H. M. Hilliker, 1st Vice-President very capably took charge of the meeting. Mrs. J. B. Goodwin gave the Secretary's report and Mrs. H. M. Hilliker read the Treasurer's report.

The first Monday in December has always been the set for holding the annual banquet and election of officers, but on account of coming on November 1st this year and not giving time enough to prepare a program, it was decided to hold the banquet on the second Monday or a date decided on by the executive. Watch the paper for time and place of holding the banquet, and all come and have a good time.

Miss Gilbert's paper on "Education and Better Schools" will be given at some future time.

Mrs. Wm. McDonald's gift was drawn by Mrs. J. L. Dodds.

A tasty lunch was served by hostesses, Mrs. J. L. Dodds, Mrs. Wm. Brown and Mrs. B. Runyon.

The high wind on Saturday did considerable damage in the way of blowing down windmills, telephone poles, and similar damage. The storm did \$20,000 damage to buildings and street signs in Edmonton.

The community was shocked on Monday evening to hear of the sudden death of Mrs. J. L. Horton from a heart attack, at the home of her daughter, Mrs. H. G. Thunell. She became ill on Saturday evening but rallied and her condition on Monday was considered quite favorable until about six o'clock when she passed peacefully away. The funeral services were held today (Wednesday) at 2 p.m. from the United Church. An obituary will be published in the next issue of The News.

On November 20th the Taxis Group held a meeting and decided that they hold the initiation ceremony. A discussion on Dramatics and Plays was held. Jack Skalkitzky was elected by acclamation as member for the Boys' Parliament for Viking, which will be held at Edmonton in the Provincial Parliament Buildings.

Mr. Wm. Edington, who has been staying at the Mrs. M. Harris home for the past few years, left a short time ago for Vancouver where he intends to make his future home.

Mr. and Mrs. H. Martineau and family, and Mrs. Borden, all of Viking were visiting Mrs. A. Hughes in town over the week end.—Wainwright Star.

The play "Turning the Trick" sponsored by the Viking Tennis Club, was well received at Killam last Wednesday evening by a large crowd that enjoyed the performance.

Messrs. J. H. McDonald and H. B. Sherman, of the Calgary Power Company, accompanied by H. P. Curtis, mayor of Camrose, were in town on Tuesday afternoon on their way to Wainwright.

Announcement of a visit of the stork to the home of Mr. and Mrs. Stanley Barrow, of Detroit, on Wednesday, November 19th, leaving a bouncing baby boy (Richard Jim). Mrs. Barrow is a daughter of Mr. and Mrs. B. Bishop, formerly of this place, but now residing at Clyde.

AVONGLEN NEWS.

Mrs. James Thomson of Paschen-dale received a message that her mother who resides in Ontario and is 97 years old had the misfortune to fall breaking her limb. At her advanced age it is hardly expected that she will recover. Mrs. Thomson left on Monday's train to be with her.

Miss Orville Fisher is putting on a dance at Avon Glen on Friday evening, December 5th. Coulman's Orchestra will furnish the pep. Everyone come and bring the ladies and enjoy another good time at Avon Glen.

Avon Glen Christmas Concert will be held on Tuesday evening, December 23rd.

Mr. and Mrs. Saunders and Edwin visited at J. Allen's on Sunday.

Mrs. Earle Pryor has been ill the past week.

Mrs. Wm. Johnson of Paschen-dale is visiting her mother and other relatives in Oregon, U. S. A.

Avondale U. F. W. A. held their regular meeting at the home of Mrs. Stagg. Several business matters were disposed of. The local decided to ask for a demonstration on foods for the coming season. Mesdames, Coulman, Marshall and Allen were chosen as a committee to attend to the details of same. Mrs. Ellet rendered several piano solos. A paper on "A tray for the sick" was given by Mrs. Ballentine.

Several Cook Books were disposed. The meeting was brought to a happy ending by the serving of a delicious lunch by the hostess and a social chat over the tea cups. The next meeting will be on December 18th at the home of Mrs. Ballentine.

Anyone wishing to obtain a U. F. W. A. Cook Book has just received a supply from head office, the price being 75c each. These books contain recipes for every known food available as well as canning, pickling, curing meats soap making, bleaching fluids, lotions for chapped hands, vinegar making at home, etc., etc. are nicely bound in durable white cloth and are a real help to any woman who does her own cooking. This is the second edition now being put out and contains 220 pages. Full book size of good things to eat, recipes have been contributed by every U.F.W.A. local in the Province and are all tried and tested.

PARLIAMENT WILL NOT MEET UNTIL EARLY IN MARCH

Ottawa, Nov. 28th.—While official announcement has not been made until within a month of the event it is not the intention of the Bennett Government to call parliament together until approximately March 1st.

The decision is, of course, subject to amendment but the reasons which have led to it will hardly be altered. They are, firstly, that the delay will permit the Government to complete its entire tariff revision and to have its budget ready for submission as soon as the debate on the address from the Throne is concluded. Secondly, that by meeting in January the House will only add two additional months of debate to Hansard.

While the House is in session departmental business necessarily languishes as Ministers are otherwise engaged. A January to June session, followed by the holiday months of July and August, would knock eight months out of the departmental year, or at least hamper administration for that length of time.

All the general argument on tariff revision might be concluded in two weeks but it is a matter of record that on a major tariff revision every item will see reiteration of the argument until hot weather drives the membership home next year, whether the House assembles in January or March, it will talk until July, hence the viewpoint that two months can be saved for departmental work if the session is called in March.

CANADA'S TOBACCO CROP

The province of Ontario is rapidly claiming the distinction of being the "Virginia" of Canada, for out of this year's Canadian tobacco crop of 36, 712,700 pounds, Ontario produced 28, 078,000 pounds, according to the agricultural department of the Canadian National Railways. The Canadian tobacco crop this year is an increase of 6,226,000 pounds over last year, of which increase Ontario is credited with producing 6,000,000 pounds alone.

When school opened in a neighboring town last month one of the ten year old girls was very enthusiastic about her new teacher. "Why, mother," she said in surprise when she got home "she's the sweetest thing! She believes in politeness and courtesy and modesty and all that junk! Why, I'd not be surprised to find that she even believes in Santa Claus."

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

Judicial Sale of Farm Property

There will be offered for sale by Public Auction by J. W. Stuart, Auctioneer, at the Post Office at Irma, Alberta, on Saturday, the 13th day of December, A.D. 1930, at 3:00 o'clock in the afternoon.

The South-West Quarter of Section Six (6), Township Forty-Six (46), Range Eight (9), West of the Fourth Meridian, containing by admeasurement One Hundred and Sixty (160) acres more or less, according to Dominion Government Survey, excepting thereout all mines and minerals.

The property will be offered for sale at an Upset Price of \$2750.00. The above property is situated 3.2 miles from Irma where there is a Railway Station, Elevator and Post Office.

The Vendor is informed: The soil is a chocolate loam with clay subsoil. Sixty acres are cultivated and one hundred acres more could be cultivated, all fenced, two wires. There is a Shack 12 ft. by 12 ft. on the land.

Terms: 10 per cent cash at the time of the sale and the balance to be paid into Court within sixty days without interest, or in the alternative, 10 per cent, as aforesaid, and the execution of a mortgage for the purchase for the sum of \$1000.00, which shall be a first charge on the lands, payable in five equal annual instalments of \$200.00 each with interest at 8 per cent, payable annually, and the remainder to be paid into Court with in 60 days from the date of sale without interest. In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

For further particulars apply to Messrs. Tighe & Kerr, Barristers, Solicitors, 9 Imperial Bank Chambers, Edmonton, Alberta, Solicitors for the Vendor herein.

DATED at Edmonton, Alberta, this 7th day of November, A.D. 1930.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form,
of the Bank's

ANNUAL STATEMENT

31st October, 1930

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$697,395,742.34
Payable on demand and after notice.	
Notes of the Bank in Circulation	39,724,450.50
Payable on demand.	
Letters of Credit Outstanding	8,723,863.80
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount in "Resources").	
Other Liabilities	4,367,780.52
Items which do not come under the foregoing headings.	
Total Liabilities to the Public	\$750,211,837.16

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	76,757,700.45
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$826,969,537.61

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$100,047,419.79
Notes of and Cheques on Other Banks	41,634,155.54
Payable in cash on presentation.	
Money on Deposit with Other Banks	35,118,848.74
Available on demand.	
Government & Other Bonds and Debentures	181,592,610.56
Guaranteed Securities practically all of which mature at early dates.	
Stocks	1,037,042.59
Railway and Industrial and other stocks at or below market value.	
Call Loans outside of Canada	60,921,712.69
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	17,840,690.03
Payable on demand and secured by bonds and stocks of greater value than the loans.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$438,192,479.94
(equal to 59.32% of all Liabilities to the Public)	
Other Loans	359,703,279.35
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Three properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All others of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,803,352.09
Acquired in the course of the Bank's business and in process of being realized upon.	
Customers' Liability under Letters of Credit	8,723,863.80
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not included in the foregoing	4,046,562.43
Making Total Assets of	\$826,969,537.61
to meet payment of Liabilities to the Public of	\$750,211,837.16
leaving an excess of Assets over Liabilities to the Public of	\$76,757,700.45

PROFIT and LOSS ACCOUNT

Profits for the year ending 31st October, 1930	\$6,519,031.51
Premium on new Stock	51,439.30
	\$6,570,470.81
Dividends and interest on instalments paid or payable to Shareholders	\$5,047,386.99
Credited to Rent Account	31,450.30
Provision for Trans Dominion Government	439,070.45
Reservation for Bank Premises	800,000.00
	6,339,025.94
	\$2,231,444.87
Balance of Profit and Loss 31st October, 1929	725,882.31
Balance of Profit and Loss carried forward	\$947,047.38

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 113 years the Bank of Montreal has been in the forefront of Canadian finance.

NEWS AND VIEWS KINSSELLA DISTRICT

Mrs. Dave Corbett is spending a few days in Edmonton.

Mr. J. L. Smith spent a few days in Edmonton last week.

The Ladies Aid will hold their annual meeting at the home of Mrs. R. L. Eaton on Thursday afternoon, December 4th at 3 p.m. Election of officers will take place at this meeting. A full attendance is desired.

A terrific wind storm visited this place on Saturday afternoon and evening. We haven't heard of much damage being done right around here. Some say it was the worst wind storm they ever witnessed.

Mr. McKie is spending some time in Edmonton.

One of the Carpenter gangs of the C. N. R. are here doing some work on the interior of the station and living apartments.

The Ladies Aid held their Bazaar and Tea on Saturday afternoon in the basement of the church. Considering the weather there was a very good attendance and a very neat sum was realized from the sale of work and tea, the amount being \$73.75.

NEWS ITEMS FROM JARROW

Mr. A. Christensen who has been ill in Viking hospital returned home on Saturday much improved in health.

Mr. H. Barton spent a couple of days in the city this week.

Mrs. Ed. Peet and baby Glenn, who has been visiting near Irma returned to her home on Tuesday.

The Girls Club are planning a tea with fancy work booth, a fish pond, and candy booth, and other novel features for December 13th and jenny dancing in the evening. The proceeds will go to Sunshine or for supplying a good Christmas to any needy families. Keep this date open and visit the hall either afternoon or evening.

Mr. Jas. Miller spent last week in Edmonton on business.

Mr. and Mrs. N. Luxton visited in Innisfree on Sunday.

Mr. and Mrs. McNab and baby Joyce spent the week end in Hienler.

Mr. S. McGregor is in the city where we believe he has procured work for some time.

Mr. Pete Lindquist, of Viking spent Sunday at his home here.

Miss Mollie Benjamin, of Melville, Sask., returned to her home after visiting here for the last month. She was accompanied by Mrs. Morby who is spending the week in Melville.

Mrs. E. Williams is visiting with friends and relatives in Calgary and Turner Valley.

On Tuesday evening the Community Club entertained in the hall for Mr. and Mrs. Ward Matthews. A social evening was followed by lunch and dancing was the program for the night.

Games were played for awhile when Ethel Peet and Alma Marby dressed like a bride and groom entered the hall and presented this popular couple with a large clothes basket beautifully decorated and filled to capacity with gifts both useful and ornamental. After all the parcels had been opened Mr. and Mrs. Matthews both thanked the people in a few well chosen words. Lunch was served and an impromptu dance brought a most enjoyable evening to a close.

Practices have started for the Christmas Tree which will be held in the hall on Tuesday night, December 23rd.

The Ladies Aid will hold their next regular meeting at the manse on Wednesday, December 3rd. This is the annual meeting and election of officers. All ladies of the district invited to be present.

IMPOUNDED

The following animals were impounded by the undersigned on November 18th, and unless sooner redeemed by the owners, will be sold at the pound on the N. E. quarter Section 24-45-7-4th on SATURDAY, NOVEMBER 29th, 1930.

1 Black gelding, branded SO on left thigh, wt. about 1000 lbs; 1 Pinto Gelding, branded M on left jaw, wt. 900; 1 Grey Gelding, branded M on left jaw, wt. 800; 1 Grey Mare, branded EY half diamond above, on left shoulder, wt. 1200; 1 Buckskin, no brand, wt. 800 lbs; 1 Black Gelding, branded VW on left thigh, wt. 1200; 1 Dark Bay Gelding, two white high feet, no brand, wt. 1100; 1 Bay Mare, white face, one white hind foot, no brand, wt. 1100; 1 Bay Gelding, white face, two white hind feet, one right front foot white, no brand, wt. 1100.

O. CROTEAU, Poundkeeper,
Wainwright, Alberta.

WESTERN BOYS TO GET FREE COURSE IN ALBERTA AGRICULTURAL SCHOOLS

A free course in Alberta's agricultural schools, valued at something more than two hundred dollars, was presented Thursday of last week at Toronto, by Hon. Geo. Hoadley, Minister of Agriculture for Alberta, to each of four boys who are members of the two Alberta towns which won the Canadian championships in swine club and cattle work in the Canadian National Railways' contests at the Royal Winter Fair.

The team from Camrose, Alberta, champions in cattle club work, are the two McNeight brothers and the scholarship will be for the agricultural school at Olds, while the two boys from Vegreville, Robert Wyllie and William Schmidt, will be given the scholarship in the school at Vermilion. Mr. Hoadley made his announce-

ment of the scholarships while speaking at the presentation of trophies in the swine and cattle club contests, presided over by Vice-President W. D. Robb, of the C. N. R. Mr. Hoadley congratulated the boys for their triumph in defeating contestants from five other provinces of Canada.

Vice-President Robb, of the C. N. R., in presenting the Vegreville team with the Robb trophy spoke highly of the work of the boys and girls clubs in Canada, saying that it had to be one of the most important branches of agricultural work, and was doing wonders to put agriculture and particularly livestock on a better basis. Bronze models were presented by Mr. Robb to all the other teams in the swine club contest. Dr. Black, director of colonization and agriculture for the C. N. R. presented the Black trophy to the Camrose boys, and referred to the splendid work of the Provincial Governments in Boys and Girls Club work.

Consumption of gasoline in Canada increased 543 per cent from 1920 to 1929 and in the same period the use of fuel and gas oils advanced 138 per cent. The wider use of motor cars, farm tractors and other agricultural machinery is given as the reason for the great increase in the use of gasoline and the growing popularity in the use of oil for heating purposes accounts for the advance in the consumption of fuel and gas oils.

An impressive march past of over 2,000 sockeye salmon was seen this summer at Stamp River Falls, B.C. The fish took from June 11 to July 20 to pass the falls by aid of the fishway constructed by the Canadian Government Department of Fisheries. A count of the fish was made at the falls during ten hours of each day in the six week period. As compared with the previous year there was a large increase, 9,021 against 8,714.

Take Long Walks Fat Men are Told

How can you walk off your fat if you haven't any energy to do it? You can take off fat with Kruschen Salts if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

There are six different salts in Kruschen that your body organs must have if you are to enjoy good health. While you are losing fat you will be gaining in vigor, energy, vitality and power of endurance.

That means that soon you will be able to walk many miles without fatigue and enjoy every step you walk. Drug Stores all over Canada sell Kruschen Salts, and a jar costs but 75 cents—it's a real blessing to fat people.

WORLD HAPPENINGS BRIEFLY TOLD

Francis Watts, the authority on tropical agriculture, died recently at Port of Spain, Trinidad, aged 71.

The port of Vancouver, I believe, is destined to become the greatest in the world," said the Minister of Marine, Hon. Alfred Durand, in an address at Vancouver.

Dr. Charles F. Collier, D.D.S., who was largely instrumental in forming the Canadian Army Dental Corps early in the war, died in Toronto, in his 64th year.

When the Prince of Wales visits South America next year to open the British Trade Exhibition at Buenos Aires, he plans some extensive sight-seeing.

There were no legal barriers to the building in London, England, of a hotel by the C.P.R., despite a rumor from London to the contrary, company officials stated.

Another great European war in 1932, resulting in the annihilation of Germany, is predicted by General Ludendorff in a pamphlet just published.

The trade delegation of the Canadian Chambers of Commerce was entertained in Shanghai at luncheon by the Pan-Pacific Association before sailing for Hong Kong.

The preparatory disarmament commission adopted the first article of the naval armament section of the draft convention providing for total limitation and reduction of tonnage.

The British dirigible R-34, which crossed from Scotland to Mineola, N.Y., in 1919, required 108 hours for the journey, 60 hours longer than the land-to-land crossing of the R-100 this year.

Premier MacDowall's official residence, No. 10 Downing Street, had a window smashed with a brick. A man whose name was given as Louis Colville Miller, 60, was arrested and charged with causing willful damage.

Would Be Safe

Rudiments Of Flying Taught In London, England, From Table-Top

A table-top teacher for the rudiments of flying is being used in London, England, to teach student fliers, don, England, to teach student fliers. The "pilot" is provided with a real fly-stick, a rudder bar and throttle, fitted under the table at which he sits. On the table at his eye level is a large model airplane and the rear end of the case is open so that the pilot will feel as if he is flying 70 miles an hour. All movements of the controls at the desk are recorded by the enclosed "plane."

Silver Fox Breeding

Canada was the first to develop the breeding of silver foxes in captivity and she has so maintained her position in this respect that she is regarded as a world-leader by all other countries whose representatives periodically visit the Dominion to secure breeding stock and in search of knowledge and advice in the conduct of similar undertakings.

Personality Suffers In Mechanical Age

Toronto Minister Says Victorian Era
Not Altogether To Be Pitted

The rise in general intellectual development in the modern age did not entirely compensate for the loss of the dominating personalities of the Victorian era, Rev. G. Stanley Russell, pastor of Deer Park United Church, Toronto, told members of the Toronto Public School Teachers' Association at its annual meeting. The loss of individuality and personality, he said, was one of the by-products of the enormous increase in mechanical inventions.

The art of hand-writing, he said, was passing because of the prevalence of the typewriter. People "banged" letters to one another on the typewriter, but the day of long hand-written personal epistles had passed its zenith. Because of the invention of the typewriter, people were laying by the use of their hands in writing and because of the advent of the motor car, they were losing their legs. The chance for close observation of nature, and one benefit to health as well, were being sacrificed when people gave up walking.

The glory and personality had likewise gone out of war. Military training, he stated, had no real relationship to warfare today because war had become merely a thing of mechanical and scientific devices.

Much sympathy, he felt, was now being wasted on people who lived in the reign of Victoria. It was a very happy period, he said, despite the jeers which a certain faction of the "moderns" hurled at it.

(By Annette)

FRONT OF APRON AND RUFFLE CUT IN ONE

It's simple as A, B, C, to make! You'll like this dainty apron immensely. It's so attractive to slip on over one's best frock. It is gray chintz that is useful as well. It offers lovely protection to the front of the frock. Aren't you surprised to learn that the front of the apron and ruffle cut in one piece? The belt is in two sections and is attached at sides and fastens at the back with button.

The top of the apron is joined to a yoke with U-shaped neck. Made in a jiffy! You bet! For the medium size, 1 1/4 yards of 40-inch material is sufficient. Style No. C-892 is designed in sizes small, medium and large. Red and white dimity prints, dotted and in pastel shades and blocked tissue gingham in yellow and white are dainty suggestions. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Reporter Plans Yukon Trip

Newspaper Man From Paris Will
Write About Frontier Life In

Canada Sent by his newspaper, "Petit Parisien," to gather data on the north-western parts of Canada, a young Parisian reporter, Aloucherie, passed through Montreal recently on his way to Yukon and Alaska where he intends studying the romantic and impressive surroundings that inspired Jack London's celebrated novels.

A year ago Mr. Aloucherie made a trip out west to investigate immigration problems, but this time, his inquiry will cover the life of the mounted police, the prospector, the Eskimo and the missionary. His trip, which has Vancouver as a starting point will extend as far as Ketchikan, Dawson and possibly Nome. Mr. Aloucherie intends retracing the path of the '98 gold rush.

Similar work, on previous occasions has taken the young French reporter to Morocco and Syria, where he furnished the "Petit Parisien" with magazine material necessitated by tense competition now existing between the feature sections of Parisian newspapers.

New Job For Prince

Sir Phillip Gibbs Thinks He Could
Lead Enlisted Army

Sir Phillip Gibbs, famous war correspondent and author, has submitted to the responsible authorities proposals for a novel overseas settlement crusade led by the Prince of Wales. The first contingent would be of one hundred thousand of the younger men with their womenfolk, who would form new colonies and organized on the same lines as the expeditionary force to France with general headquarters staffed by administrators and experts including engineers, agriculturists and social organizers.

If the Prince went into the distressed areas saying "follow me," the young manhood would follow him in the great adventure if he promised to be their leader to go out with them and visit them from time to time. The Prince alone could break down the political opposition of the Dominion and rally them to a new idea of service on behalf of the motherland," says Sir Phillip.

Long Cruise In Fishing Boat

Adventurers Reach Pacific Coast
After Crossing Atlantic and

Sailing Through Panama E. W. Wilson, with a crew of three, has arrived in Nanaimo on the British Columbia, a 25-ton fishing boat, after crossing the Atlantic, sailing through the Panama Canal and up the Pacific Coast.

The adventurous trip was at times full of hardships and danger. Once when more than 900 miles from land, provisions and water ran low. For two weeks the crew were reduced to one cupful of water a day. By steering into the passenger lanes, the little sloop was eventually sighted by the Matson liner, "Wilhelmina," which supplied food and other necessities.

Will Build Produce Market

Twenty market gardeners in the Winnipeg region are planning the construction of an all-year produce market in Winnipeg, to be conducted by the growers, each of whom will occupy a stall. The cost of the building will run to about \$35,000.

Milk Pool To Expand

The Saskatchewan Milk Pool, whose corporate name is "The Saskatchewan Dairy Co-operative Marketing Association Limited," has decided to expand and go into the dairy business. It is now proceeding to get into touch with those eligible for membership.

Popular stories to the contrary; there is no such thing as a hoosnake which can put its tail in its mouth and roll along.

Trying Hypnotism As Cure For Amnesia

Young Man's Memory Is Being
Gradually Restored

Through the strange powers of hypnotism, memory may be restored to the healthy young man who awoke last year in a small New Orleans hotel with his past a complete blank.

All other treatments having failed to penetrate the fog of his memory, the patient agreed to permit Dr. Paul C. Young, Professor of Psychology at Louisiana State University, to try hypnotism.

Dr. Young reported that these experiments conducted over a period of months at the East Louisiana Hospital had brought some results, and may prove as fruitful as those conducted by Dr. William Brown, British hypnotist, with shell-shocked veterans.

It bit his past having been reconstructed. Dr. Young explained, by putting the patient under delusion that he was again a child. In the trances, Dr. Young said, the man had mentioned an orphan's home called "Sacred Heart," a Sister Mary, of being a newboy in San Francisco and of being called "Chuck" by playmates. He also mentioned having infantile paralysis, which was proved by a physical examination.

Encouraged by the results, Dr. Young hopes to bring him through the stages of his life until he can pick up the threads lost when he awoke in New Orleans.

Outside of his loss of memory physicians said the man appeared to be healthy and normal. He has adopted the name of "Mason."

Dairy Production Higher

Latest Statistics Show Appreciable
Increase For All Canada

"Statistics of dairy production at the present time indicate that there is appreciable increase in milk and cream production all over Canada at the present time," observes Dr. J. A. Ruddick, dairy commissioner of the Dominion Department of Agriculture. With respect to butter production Ontario and Alberta show a 15 per cent increase for the first six months of the production year. Cheese production, of which 97 per cent is consumed in Ontario and Quebec, was 30,000 boxes behind last year at October 11. One of the interesting features in the dairy industry at the present time is the increasing demand for dairy stock in the prairie provinces.

C.P.R. Hotel For London

Arrangements Have Been Made For
Securing Suitable Site

Announcement was made by E. W. Beatty, chairman and president of the Canadian Pacific Railway Company, of the acquisition of a site for the hotel proposed to be erected by the company in London, England. Mr. Beatty's statement follows:

"After protracted negotiations, the company has succeeded in securing a hotel site in London, facing Berkeley Square and Bruton Street. The block is a substantial one, containing approximately 77,000 square feet in area. Negotiations for its acquisition are just about completed, and when possession is secured, which will not, however, be for some months yet, the work of construction will commence. In the interim, the company's engineers and architects will proceed with the preparation of preliminary plans. The hotel, when completed, will contain a minimum of six to seven hundred rooms."

Winter Service Arranged

Mail Will Be Carried Into North By
Air More Frequently

Arrangements for an air mail service into the Mackenzie River district through the winter of 1930-31 have been made by the Post Office Department, according to an announcement in the November supplement to the Canada Official Postal Guide.

The air mail service will supercede all previous mail services to this area and will effect more frequent and speedy communication than has been possible in the past. The frequency of delivery will be increased to more than double, and the time will be reduced to less than half.

The mail service between Herschel Island, Y.T., and Akilavik, N.W.T., will be performed by police patrol. Rae will be served irregularly by police patrol from Fort Resolution.

Automobiles Entering Canada

In 1919 the number of touring automobiles entering Canada was 238,000. In ten years (1919) this number grew to 4,509,000.

It was once supposed that the northern lights of Arctic regions could be smelled as well as seen.

The First Pipeful Tells the Story

Turret Pipe Tobacco

The first pipeful tells the story better than a full page advertisement—
Here's a cool, fragrant smoke in perfect smoking condition; and the smoothness and flavor of the finest tobacco properly aged and carefully blended.

This new screw top tin is a wonder—it keeps the contents in perfect smoking condition; and when empty, can be put to many uses.

12 Pipefuls in each 1/2 lb. tin
3 " " " " 20c. package
3 " " " " 15c. package

You are already acquainted with the excellent qualities of the other members of the famous Turret family—Turret cigarettes, Turret pipe tobacco, and we now invite you to give this excellent TURRET PIPE TOBACCO a trial.

Recipes For This Week

(By Betty Barclay)

CHERRY ROLLS

1 1/2 cups special cake flour, sifted.
3 teaspoons baking powder.
1/2 teaspoon salt.
2 tablespoons butter or other shortening.
1/2 cup milk (about).
1 can (two cups) red cherries, seeded and drained.
Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually until soft dough is formed. Roll 1/4 inch thick. Cover with cherries. Roll in long roll, pressing edges together. Cut into 1 1/2-inch slices. Place in greased pan and pour cherry sauce over them. Bake in hot oven (325 degrees Fahrenheit) 30 minutes, basting often. Serve hot, with sauce poured around them and a tablespoon of whipped cream placed on each slice. Serves six. Cherry sauce calls for 1 cup sugar, 1 tablespoon flour, 1 cup cherry juice, 1 cup water and 1 tablespoon butter. Combine sugar and flour, add fruit juice and water, and cook 1 minute. Then add butter.

APPLE SAUCE PUDDING

1 junket tablet.
1 tablespoon cold water.
1 cup thick apple sauce.
1 pint milk.
3 tablespoons sugar.
1/2 teaspoon vanilla (or other flavoring).
Season the apple sauce to taste with cinnamon or nutmeg, and divide it among 6 dessert glasses. Prepare the junket according to directions on the package. Pour carefully at once over the apple sauce. Let stand undisturbed in a warm room until set—about 10 minutes. Then chill.

Safety First

The Sabetha Herald editor is now spending a brief period out of town. Last week the make-up man accidentally added a boxing bout paragraph to the story of the most prominent wedding of the season. It said: "The assembled crowd greatly enjoyed the fight, which was a slugging match from start to finish."

TOO MUCH ACID

may be causing those
frequent headaches

WHEN there's too much acid in your stomach, you must force yourself to work, and even pleasures are too great an effort. Appetite lags; the digestion is poor; the whole system suffers.

Laboratory tests show an acid condition is due to errors in our modern diet. But you need not wait to diet your way out of the trouble! Take a tablespoonful of Phillips' Milk of Magnesia.

Delightful to take. Endorsed by physicians for 50 years and prescribed everywhere for men, women and children. The genuine is always a liquid—it cannot be made in tablet form. It always bears the name Phillips' for your protection.

acid. Whenever you are taking cold or feel sluggish, weak, constipated.

Phillips' Milk of Magnesia has a gentle laxative action.

Take a little whenever heartburn, sick headaches, nausea, flatulence, indigestion or biliousness show the digestive system is becoming too

CHAPTER V.—Continued.

"He moved on slowly, reaching Nick's gate and looking up at a doorway beautiful despite its peeling paint. There was no sign of Gay. In Baker's most men come home at noon, and at eleven-thirty their wives are in the kitchen. With the unerring instinct of one born and raised in the community, John Maxwell made his way toward the side door.

He saw then, that Gay was in the orchard, hanging some diminutive pink garments on the line. Her task done she glanced across into her neighbor's garden, where, still clad in crisp blue linen, Mrs. Halliday was superintending the setting-out of plants. Glancing up, she caught Gay's eye, and bowed. There was nothing friendly in the act—nothing akin to the greeting she had tossed across the square to Nick, a few hours earlier. John Maxwell's grey eyes hardened. Then, as Gay caught sight of him, he smiled.

"Mr. Maxwell! What brings you out this morning?"

"Only the spring. Couldn't seem to settle down to work, and Nick gave me leave to take a holiday."

Gay laughed and said: "Will you stay to dinner with us?"

"Not today. Guess you have enough to do, cooking for your own three boys. Nick's still a boy to me, you know, if he has been married long enough to acquire a family. Do you like your new neighbors, Gay?"

"They had reached the porch, and the girl sank down wearily, glancing at the pocket of her dress, which was held at one corner by a safety pin.

"I hope you don't think I use pins instead of needles for my mending." Her glance strayed to the trim blue

figure across the hedge, and her color rose. "It's Sonny does it. He can just reach my pockets and he will pull at them. Sometimes he tears them when I can't stop to mend."

She was silent for a minute before she said, in answer to his question: "You asked about the Hallidays? I hardly know them. Nick called one night when I was laid up, with a headache. He says they're very pleasant. She's an artist, and they're fixing the house beautifully. It makes me crazy to fix ours, but everything takes so much money. There's Sonny calling. He's just waked up, but baby's sleeping. Do wait and see him, Mr. Maxwell."

"Yes, I'll wait. I want to poke round your panny bed. Most all ours got winter-killed this year."

But when Gay had gone John Maxwell didn't move toward the panies. He sat on the steps, watching the blue-clad figure opposite. The flush that had mounted to Gay's cheeks as she glanced at her new neighbor, had not escaped him; nor had the tired lines beneath her eyes.

He wondered if it were only the children who had caused Gay's lack of sleep. Was it possible that Nick, the steadiest fellow in the whole world, was making a fool of himself over another woman? Stranger things happened every day, and Nick was only a boy—a boy who had never quite had his fling.

John Maxwell understood. He himself, had married at twenty-one. He remembered a time some four years later, after the advent of the second baby, when life had seemed a good deal of a treadmill. But there had always been Mary. Never for a moment had he looked at anybody else. Surely Nick—

"Here's my big boy, Mr. Maxwell."

Gay stood in the doorway, Sonny, fresh and sweet in a pink romper, in her arms. For a moment the tired lines had left her eyes, and only the pride of motherhood was there. John Maxwell, many times a grandfather, thought he had never seen a sweeter picture. He stretched out his arms, and with a delighted cry the boy went to him.

"He wouldn't do that with everyone," said Gay. "He's rather shy."

"I think he remembers my last visit, as well as my watch charm that always fascinates the youngsters."

The caller had seated himself upon the steps again, and given the boy his watch. Sonny stared at it a moment soberly, then held it to his ear in a way that made them laugh.

"He looks more like his daddy than he did, Gay."

"I've noticed that. I love a boy to look like his father. It's strange, Mr. Maxwell, but Nick wanted a little girl. I thought a man always wanted a son; and Nick's such a man's man, too. But I honestly think he was disappointed, especially when the second baby wasn't a 'little sister'; though he wouldn't change either of them now," she added, smiling.

"Daddy?" asked the child, looking up questioningly at his mother.

"Nearly time for him," Gay answered, and smiled tenderly. "Daddy's the first word he said, Mr. Maxwell. I remember feeling the least bit hurt! And Nick's such a wonderful playmate that he adores him. I—"

She stopped because the boy had uttered a delighted squeal. He wiggled away from John Maxwell's knee, while the watch, forgotten, hung loosely by its chain. Nick was coming! With swift, unsteady feet the child ran to him; and with a sense of genuine relief the president of the First National Bank saw that his paying teller had no eyes for the lady across the hedge. He stooped with outstretched arms, and lifting his small son high, kissed the top of his bright head—bumped him a moment vigorously, and settled him on his shoulder as he came forward.

"A pretty sight, that," said John Maxwell softly.

But Gay did not speak. She had

Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punnichy, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound

Sole U.S. Retailer, Mrs. Chas. E. Kane, Inc., 233 N. 4th St., St. Paul, Minn.

and was watching her husband with an intensity not quite natural in a wife of four years standing. The blue figure in the adjoining garden was also watching; though Nick was serenely unconscious of an audience. He came nearer, grinned, and said: "So this is how you take a holiday, Mr. Maxwell—calling on my wife? Mind if I kiss her? It's a sort of habit I've acquired."

"A good habit," said John Maxwell quietly. "Don't stop for me!" and the fact did not escape him that as Nick obeyed, Mrs. Halliday appeared as if disgusted at this display of family affection, turned away.

"Damn her!" said John Maxwell below his breath.

He said it again when he was in his private sanctum at the bank that afternoon. Nick had insisted that he stay to dinner, and as they started back to work, Mrs. Halliday appeared on her front porch. She didn't speak, but her smile was so intriguing that Nick stopped; exchanged a few words about the garden; presented Mr. Maxwell as his "chief," and, at a subtly expressed hint from the lady, promised to stop over after supper and survey her peony plants.

"I've been hard at work in the garden all the morning," she apologized prettily, with a glance at her spotless linen gown. "If you'll forgive my appearance now, I'll promise to look less disreputable this evening."

"You look," Nick instantly replied, "like a part of the garden itself," which bit of gallantry brought a sudden, satisfied light to the woman's eyes.

The walk to the bank was, on the whole, silent. It was as they turned into Main Street that Nick said, as if it were something he'd been considering: "Queer, isn't it, how some women can work in a garden, or round a house, and look so confoundedly neat? Now Gay—"

John Maxwell snorted angrily.

"Neat! My dear boy, that woman never set out a plant in her whole life! She stands about looking pretty, and ordering some man to do the dirty work. Take care, Nick, that she doesn't take to ordering you!"

Nick stared at the frowning visage of his old friend; then laughed and said: "To do her dirty work?"

"There are all kinds of dirty work, my boy," answered John Maxwell, so soberly that Nick exclaimed: "Good thunder! Mr. Maxwell, you don't think—"

"I don't think anything," broke in the older man hastily, already fearing that his indiscretion might put ideas into Nick's head. "I don't think anything except that you'd better take care of Gay. She's got hollows in her cheeks."

They had reached the bank, and without another word its president marched into his private room and slammed the door.

"Damn her!" he said for the second time that day.

Yet, when he cooled off and thought it over, he realized that he had no grounds whatever for his suspicions. As he had said to Gay, Nick was still a boy, though he had shouldered a man's responsibilities. Why shouldn't he enjoy talking with a pretty woman? John Maxwell smiled at the thought that he, himself, was not averse to doing so! Should he blame Nick because Gay seemed tired and listless? Most young mothers were, being unused to broken sleep and sudden loss of freedom. He re-

membered when Mary had looked like that—and his two daughters as well. (To Be Continued)

Belonged To Trafalgar Fleet

"Implacable" May Be Kept In Repair If Plans Are Successful

After a century of service in the Royal Navy, "The Implacable" some 20 years ago, was condemned to be sold. She is the last of the ships present at Trafalgar now actually active. Wheatley Cobb persuaded the Admiralty to lend him the ship, and she was moved to Falmouth and maintained at his expense. For the last three summers she has been used as a holiday training ship. Efforts are now being made by naval, military and civil leaders to keep "The Implacable" in repair and provide for its maintenance.

Guard the Baby Against Colds

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist. The health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Income Tax Collection Record

Record Breaking Mark Is Set By Income Tax Collections

A new all time record for income tax collections has been set since April 1, 1929, up to the present, \$50,059,000 having been deposited with the Federal treasury in that period by Canada's taxpayers. According to announcement at the Department of National Revenue, this total is approximately \$2,300,000 ahead of the like period last year.

The record-breaking mark set by the income tax collections is interpreted in government circles as indicating business conditions in the Dominion are favorable. Money, at least, cannot be extremely scarce with the taxpayers paying up so promptly.

Other financial returns for the period under review are not, however, so favorable. The customs revenues have dropped \$30,000,000, while excise revenues are down \$15,000,000. The drop in the latter is attributed largely to the prohibition of liquor exports to the United States.

New Survey Ships For Canada

Construction at an early date of two hydrographic survey vessels, one for use out of Victoria on the Pacific Coast, and the other for the St. Lawrence, is under consideration by the Dominion Government, stated Hon. Alfred Durand, Minister of Marine, who was in Victoria on an official visit of inspection.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

Dice used by Egyptians in Queen Cleopatra's time are exhibited at the Field Museum in Chicago.

For Dry Skin—Minard's Liniment

Maybe... you've never thought of this

Next time you want soft water in a hurry try Gillett's Lye. Dissolve one tablespoonful in a gallon of cold water* and use this solution for cleaning sinks, refrigerators, floors, tiling, etc.

For washing dishes, dissolve one tablespoonful of Gillett's Lye in one quart of cold water. Keep in a labelled bottle and put a few drops in the dishpan whenever you wash up.

*Lye should never be dissolved in hot water.

GILLETT'S LYE

HAS HUNDREDS OF DAILY HOUSEHOLD USES

Send for our booklet. It will show you the many ways Gillett's Lye can make cleaning easier for you

Afraid Of The Truth

Impossible To Get Uncensored News From Russia

Complaints are sometimes made that so many British newspapers, including the London Times, do not maintain accredited correspondents in Moscow. But in Russia today there is no place for a responsible correspondent of an independent newspaper. When the Times send a correspondent to Russia it will be to supply its readers with honest and unbiased information, and such information can clearly be neither gathered nor telegraphed by a correspondent working under an arbitrary system of espionage. There is no discrimination in this matter, as is sometimes supposed, between Russia and the rest of the world. If similar conditions were ever to prevail in Italy, for instance, or in Turkey, the correspondent of the Times would instantly be withdrawn, as correspondents have sometimes been withdrawn from foreign countries in the past. It is not the least significant indictment of the present regime in Russia that its leaders are afraid to let the world know the truth.—London Times.

China To Have Auto Factory

Establishment of an automobile factory in China, involving expenditure of several million dollars, is being planned by a Shansi Province millionaire in conjunction with a syndicate of Germans. It will produce an automobile patterned after prominent German makes. It will be located at Taiyuan, capital of Shansi.

The Bored: "How could you?"

Little Helps For This Week

"Whatsoever a man soweth, that shall he also reap."—Galatians vi. 7.

God will not seek thy race, Nor will He ask thy birth; Alone He will demand of thee, What hast thou done on earth?—Persian.

And they who sowed the light, shall reap the golden sheaves of morning.—James Russell Lowell

The present life is the seed-plot of the future state, and the harvest which we reap in eternity is the same in character and quality as that which now we sow. Every thought we think, every word we speak, every action we perform, every opportunity of service neglected or improved, is a seed sown by us, the fruit of which shall multiply either untold miseries or myriad blessings in the eternity into which we go.—William M. Taylor.

Prevents Blemished Stock

For treatment of caked hags in cows, or garget, use Douglas' Egyptian Liniment—the quick, sure remedy. Saves time and expense. Prevents blemished stock.

Canada's Major Power Systems

Canada has eighteen "large" hydro-electric power systems, such systems being defined as those with an annual output of 100,000,000 kilowatt-hours or more.

If everyone ate his food uncooked, says a European scientist, the normal span of life would be 140 years instead of 70.

New discoveries of caverns containing paintings of wild animals made by prehistoric cave men have been found in France.

We Have For Sale

TIME

Time for the new book you want to read; for the theatre, for your friends, for your children—for the scores of things you really want to do but lack—the time.

We have TIME for sale—taken from household tasks. Electricity, through its servants—you may call them electrical appliances—can shorten your hours of work. These electric servants are within the reach of everyone. A family income must be small indeed that cannot pay Electricity's wage.

We have for sale—TIME.

CALGARY POWER COMPANY,
LIMITED

VIKING

There were not enough signers to the chaqueta guarantee to have the chaqueta come back next year.

The C.W.I. Bazaar last Saturday afternoon enjoyed a liberal patronage.

C. White, representing the Salvation Army, was in town this week, making a collection for the work.

Mr. and Mrs. H. P. Stock are rejoicing over the arrival of a baby boy this morning, Wednesday, November 26th.

Messrs. W. B. Fraser, of Calgary, M. D. Brooks and T. Armitage of the merchandising department of the Calgary Power Co., were callers in town this week.

The Jitney dance after the picture show Friday evening proved such a success that it will be repeated this Friday evening.

A dance will be held in the Phillips School on Friday, December 5th to provide a Christmas Tree fund. Snappy music. Ladies please bring lunch. Admission, Gents 50c. Your attendance will be appreciated.

Main Street

Mr. A. C. Carbol has been spending a few days in the City.

Mr. W. Masson was a visitor to the City this week.

Mr. A. E. Foxwell visited his farm at Chauvin last week end.

Mrs. Lawrence Dixon left last week for a trip to her old home in England.

Mr. Bruce Hedlow has returned to his old position at Wainwright after relieving at Calder for a few weeks.

Roseberry School is planning on holding their Christmas concert on Tuesday evening, December 23rd.

The Chicken Supper at the Albert School has been postponed indefinitely.

Mr. and Mrs. Jerome Smith, of the Sunny Brae district are spending the winter at Honolulu.

Mr. J. P. Yeend returned Saturday after spending some time in the University Hospital at Edmonton.

Mr. Pearl Smart left Friday for his home at Morocco, Indiana, after spending six weeks in the Irma district.

Mr. R. D. Smallwood and Mr. W. A. Burton returned Saturday after attending the municipal convention at Calgary.

Carl Soniff returned to Irma the first of the week after spending six weeks as foreman with the extra gang that was changing the steel on the C. N. R.

Harold Fuder, Merle Knudson, Howard Oldham, George Fischer and Joe Burton are attending the Vermilion School of Agriculture at Vermilion.

Saturday night the users of the Calgary Power Co., lights were without light practically all evening. Something happened to one of the transformers at Irma, this was at about 9:30 but shortly after the lights again went out on account of some similar trouble at Hardisty.

Mr. S. S. Sanderson has rented his farm to Mr. Murray Livingston, of Edmonton and intends moving to Edmonton where he has been transferred to the Edmonton office of the Sun Life Insurance Co., where he will be pleased to meet any of his old friends.

Dr. Greenberg was called to the home of Mr. and Mrs. N. L. Fuder in the Coal Springs district where he found their son Earl suffering from a bad attack of appendicitis. Earl was taken to the Wainwright hospital where Dr. Greenberg assisted by Dr. Maynes performed an operation. From late reports Earl was doing nicely and expected to be home soon.

Wednesday we had another visit of winter weather when the thermometer dropped to near the zero mark. After the nice weather we have been having the past few weeks this change was quite noticeable. With the exception of a few fields, threshing has been completed. There are quite a few stacks of oats that are not being threshed on account of the very low price that is being offered for them. The grain is not moving as fast as it did a couple of weeks ago when the farmers had their granaries filled and were trucking it to the cars to save building more storage room. To date about three hundred cars have been shipped from Irma from this year's crop. This is estimated to be about one third of this season's crop. Unless the price of wheat advances it looks as if quite a lot of the 1930 wheat would be carried over till next summer as it is felt that the average crop cannot be grown for the prices prevailing at present. We understand that Irma has shipped more grain this season than any point on the C. N. R. north of Red Deer.

Old Timer Passes.

The Irma United Church was filled to capacity last Friday afternoon with friends and relatives of the late James G. Elliott, who met to pay their last respects to another old timer who had grown up with the district. Rev. Mr. Geeson had charge of the service. The casket was banked with lovely floral tributes from the following relatives and friends: Mother and children, Mr. and Mrs. J. H. Elliott and Mary, Mr. and Mrs. D. Nichol and family, N. D. McMillan, Mr. and Mrs. J. C. McLean, Mr. and Mrs. J. Fletcher, Mr. and Mrs. G. Arnold, Irma United Ladies Aid, Mr. and Mrs. Frickleton, Mr. R. McFarland and Mr. I. T. Skiles, Mr. and Mrs. M. McMillan, Mr. and Mrs. R. Patterson, Hugh and Sadie Salentine, Tom and Maggie.

The following acted as pallbearers: M. G. Arnold, Mr. A. A. Fischer, Mr. J. C. McLean, Mr. R. Patterson, Mr. W. Clark and Mr. M. McMillan. After the service at the Church the body was interred in the Irma Cemetery.
